AMBASSADOR

Ambassador's two level, double structured fiberbonded special blend of 70% polypropylene and 30% nylon makes it the perfect matting for commercial entrances, lobbies and any high-traffic, high-style area. As durable as it is attractive, Ambassador's rugged and ribbed surface pattern combined with this unique fiber blend, strips away dirt, debris, and moisture. By capturing dirt and debris before it gets tracked into your building, Ambassador can reduce your cleaning and maintenance costs and increase the life of your floors. Additionally, when combined with the flexibility of TacFast®, our unique mechanical fastening system that eliminates the need for odorous liquid adhesives, your entrance will enjoy an even longer and productive life. With TacFast® tiles are securely but not permanently affixed. Installations and repairs are quick, easy, and inexpensive. For more information or a demonstration of the TacFast® system, contact your Matworks representative.
