DIAMOND MAT-EZE

Introducing the first anti-fatigue matting that's as easy on the eyes as it is on the feet. An innovative combination of ergonomics and aesthetics, Diamond Mat-Eze features a surface pattern of raised diamonds, creating durable and attractive designer carpeting. It's backed with the energizing comfort of our best anti-fatigue flooring. It is perfect for behind sales counters, customer care areas, or virtually anywhere employees may be standing for long periods of time. Diamond Mat-Eze allows you to reduce stress, minimize fatigue, and maximize productivity for your employees without having to compromise style and decor for your customers. It is yet another innovative flooring solution from the nationwide leader in specialty flooring, mats, and matting.

DIAMOND MAT-EZE

FIBER

100% Polypropylene fiber.

BACKING

Soft, triple-resilient rubber foam.

PROPERTIES

Wide-ribbed, needle-punched construction: enhances appearance. Reduces stress and fatigue. Improves productivity.

SIZE AVAILABILITY

Rolls: 6', 6" wide, by up to 50' in length.

MAINTENANCE

Can be vacuumed off with a standard, industrial vacuum cleaner with beater brush action and cleaned with any commercially accepted carpet cleaning method, such as steam or wet cleaning.

TRANSITION

Rubber back is beveled at edge, and a standard 3/8" carpet reducer is used.

INSTALLATION

May be loose laid with leading edges secured by double-faced tape, except in areas subject to extra heavy commercial traffic, in which case the product must be glued down.

WARRANTY

Limited 5-year warranty. Material will not wear through to the point where the backing shows through. Failure is due to a loss greater than 15% of pile thickness in any one area. 3-year face fiber warranty against disintegration in outdoor glue-down installations. All warranties are provided commercial glue-down outdoor installations made with either E-700 releasable adhesive or 3054 acrylic adhesive over firm, flat, clean, smooth hard surfaces, free of cracks and foreign substances, of wood, concrete, vinyl or terrazzo. No warranty is extended for product use on stairs or installation of original material.

PILE THICKNESS: 3/8"

FOAM THICKNESS: 3/8"

TOTAL THICKNESS: 3/4"
