
The Matworks – Solution Floorworks LVT contributions to LEED®

LEED® Rating System: Credit criteria compliance

The Matworks Luxury Vinyl Tile products may contribute to individual credits. Products can support criteria called out in the LEED® Rating System. LEED® is a comprehensive design tool for integrated design and analysis. Contact The Matworks for further assistance with any LEED® related questions.

The Matworks LVT may assist in credit compliance with the various LEED® rating systems in the following areas:

LEED® NC 2.2: New Construction

Materials & Resources:

- | | | |
|-------------|--|----------------|
| Credit 2.1 | <u>Construction Waste Management, Divert 50% from Disposal</u>
<i>Explanation of criteria compliance:</i> The Matworks will remove existing LVT from site and recycle into new product for your facility project through participation in their Green Diamond Program. Please contact your local Sales Representative for information on this closed loop system. | <u>1 point</u> |
| Credit 2.2 | <u>Construction Waste Management, Divert 75% from Disposal</u>
<i>Explanation of criteria compliance:</i> The Matworks will remove existing LVT from site and recycle into new product for your facility project through participation in their Green Diamond Program. Please contact your local Sales Representative for information on this closed loop system. | <u>1 point</u> |
| Credit 3.1: | <u>Materials re-use, 10%</u>
<i>Explanation of criteria compliance:</i> Reuse of existing LVT originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation. | <u>1 point</u> |
| Credit 3.2 | <u>Materials re-use, 20-%</u>
<i>Explanation of criteria compliance:</i> Reuse of existing LVT originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation. | <u>1 point</u> |
| Credit 4.1 | <u>Recycled content, 10% (post-consumer + ½ pre-consumer)</u>
<i>Explanation of criteria compliance:</i> The Matworks LVT is manufactured using a minimum of 60% post-consumer recycled vinyl content. | <u>1 point</u> |
| Credit 4.2 | <u>Recycled content, 20% (post-consumer + ½ pre-consumer)</u>
<i>Explanation of criteria compliance:</i> The Matworks LVT is manufactured using a minimum of 60% post-consumer recycled vinyl content. | <u>1 point</u> |

LEED® CI 2.0: Commercial Interiors

Materials and Resources:

- Credit 4.1 Recycled content, 10% (post-consumer + ½ pre-consumer) 1 point
Explanation of criteria compliance: The Matworks LVT is manufactured using a minimum of 60% post-consumer recycled vinyl content.
- Credit 4.2 Recycled content, 20% (post-consumer + ½ pre-consumer) 1 point
Explanation of criteria compliance: The Matworks LVT is manufactured using a minimum of 60% post-consumer recycled vinyl content.

LEED® CS 2.0: Core & Shell

Materials & Resources:

- Credit 2.1 Construction Waste Management, Divert 50% from Disposal 1 point
Explanation of criteria compliance: The Matworks will remove existing LVT from site and recycle into new product for your facility project through participation in their Green Diamond Program. Please contact your local Sales Representative for information on this closed loop system.
- Credit 2.2 Construction Waste Management, Divert 75% from Disposal 1 point
Explanation of criteria compliance: The Matworks will remove existing LVT from site and recycle into new product for your facility project through participation in their Green Diamond Program. Please contact your local Sales Representative for information on this closed loop system.
- Credit 3 Materials Reuse, 1% 1 point
Explanation of criteria compliance: Reuse of existing LVT originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation.
- Credit 4.1 Recycled Content, 10% (post-consumer + ½ pre-consumer) 1 point
Explanation of criteria compliance: The Matworks LVT is manufactured using a minimum of 60% post-consumer recycled vinyl content.
- Credit 4.2 Recycled Content, 20% (post-consumer + ½ pre-consumer) 1 point
Explanation of criteria compliance: The Matworks LVT is manufactured using a minimum of 60% post-consumer recycled vinyl content.

LEED® EB: Existing Buildings

Materials & Resources:

- Credit 1.1 Construction, Demolition and Renovation Waste Management-1 point
Divert 50%
Explanation of criteria compliance: The Matworks will remove existing LVT from site and recycle into new product for your facility project through participation in their Green Diamond Program. Please contact your local Sales Representative for information on this closed loop system.
- Credit 1.2 Construction, Demolition and Renovation Waste Management-1 point

Divert 75%

Explanation of criteria compliance: The Matworks will remove existing LVT from site and recycle into new product for your facility project through participation in their Green Diamond Program. Please contact your local Sales Representative for information on this closed loop system.

Credit 2	<u>Optimize Use of Alternate Materials</u>	<u>1 point</u>
	Recycled Content, 10% (post-consumer + ½ pre-consumer)	
	Explanation of criteria compliance: The Matworks LVT is manufactured using a minimum of 60% post-consumer recycled vinyl content.	

LEED® FOR RETAIL: *This rating system will not be officially released until Spring 2009*

Materials & Resources:

Credit 2.1	<u>Construction Waste Management, Divert 50% from Disposal</u>	<u>1 point</u>
	Explanation of criteria compliance: The Matworks will remove existing LVT from site and recycle into new product for your facility project through participation in their Green Diamond Program. Please contact your local Sales Representative for information on this closed loop system.	
Credit 2.2	<u>Construction Waste Management, Divert 75% from Disposal</u>	<u>1 point</u>
	Explanation of criteria compliance: The Matworks will remove existing LVT from site and recycle into new product for your facility project through participation in their Green Diamond Program. Please contact your local Sales Representative for information on this closed loop system.	
Credit 3.1:	<u>Materials re-use, 10%</u>	<u>1 point</u>
	Explanation of criteria compliance: Reuse of existing LVT originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation.	
Credit 3.2	<u>Materials re-use, 20-%</u>	<u>1 point</u>
	Explanation of criteria compliance: Reuse of existing LVT originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation.	
Credit 4.1	<u>Recycled content, 10% (post-consumer + ½ pre-consumer)</u>	<u>1 point</u>
	Explanation of criteria compliance: The Matworks LVT is manufactured using a minimum of 60% post-consumer recycled vinyl content.	
Credit 4.2	<u>Recycled content, 20% (post-consumer + ½ pre-consumer)</u>	<u>1 point</u>
	Explanation of criteria compliance: The Matworks LVT is manufactured using a minimum of 60% post-consumer recycled vinyl content.	

Indoor Environmental Quality:

Credit 4	<u>Option C: Low emitting materials, flooring</u>	<u>1 point</u>
	Explanation of criteria compliance: The Matworks LVT has been certified as compliant with the Floorscore Standard.
