

**The Matworks – Cosmic Rubber Floor contributions to LEED®**

LEED® Rating System: Credit criteria compliance

The Mat Works Rubber Flooring products may contribute to individual LEED® credits. Products can support criteria called out in the LEED® Rating System. LEED® is a comprehensive design tool for integrated design and analysis. Contact The Matworks for further assistance with any LEED® related questions

The Matworks Rubber Floor may assist in credit compliance with the various LEED® rating systems in the following areas:

**LEED® NC 2.2: New Construction**

**Materials & Resources:**

Credit 3.1:	<u>Materials re-use, 10%</u> <i>Explanation of criteria compliance:</i> Reuse of existing Rubber Floor originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation.	<u>1 point</u>
Credit 3.2	<u>Materials re-use, 20-%</u> <i>Explanation of criteria compliance:</i> Reuse of existing Rubber Floor originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation.	<u>1 point</u>
Credit 4.1	<u>Recycled content, 10% (post-consumer + ½ pre-consumer)</u> <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor is manufactured using ?% post-industrial recycled content.	<u>1 point</u>
Credit 4.2	<u>Recycled content, 20% (post-consumer + ½ pre-consumer)</u> <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor is manufactured using % post-industrial recycled content.	<u>1 point</u>
Credit 5.1	<u>Regional Materials</u> 10% extracted, processed and manufactured regionally <i>Explanation of criteria:</i> The Matworks Rubber Floor material is extracted and manufactured in Ohio.	<u>1 point</u>
Credit 5.2	<u>Regional Materials</u> 20% extracted, processed and manufactured regionally <i>Explanation of criteria:</i> The Matworks Rubber Floor material is extracted and manufactured in Ohio.	<u>1 point</u>

**LEED® CI 2.0: Commercial Interiors**

**Materials and Resources:**

Credit 4.1	<u>Recycled content, 10% (post-consumer + ½ pre-consumer)</u> <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor is manufactured using ?% post-consumer recycled content ( <b>confirm</b> ).	<u>1 point</u>
Credit 4.2	<u>Recycled content, 20% (post-consumer + ½ pre-consumer)</u> <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor is manufactured using ?% post-consumer recycled content ( <b>confirm</b> ).	<u>1 point</u>
Credit 5.1	<u>Regional Materials</u> 20% manufactured regionally <i>Explanation of criteria:</i> The Matworks Rubber Floor material is manufactured in (US?)	<u>1 point</u>
Credit 5.2	<u>Regional Materials</u> 10% extracted and manufactured regionally <i>Explanation of criteria:</i> The Matworks Rubber Floor material is extracted and manufactured in (US?)	<u>1 point</u>

## LEED® CS 2.0: Core & Shell

### Materials & Resources:

Credit 3	<u>Materials Reuse, 1%</u> <i>Explanation of criteria compliance:</i> Reuse of existing Rubber Floor originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation.	<u>1 point</u>
Credit 4.1	<u>Recycled content, 10% (post-consumer + ½ pre-consumer)</u> <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor is manufactured using ?% post-consumer recycled content.	<u>1 point</u>
Credit 4.2	<u>Recycled content, 20% (post-consumer + ½ pre-consumer)</u> <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor is manufactured using ?% post-consumer recycled content.	<u>1 point</u>

## LEED® EB: Existing Buildings

### Materials & Resources:

Credit 2	<u>Optimize Use of Alternate Materials</u> Recycled Content, 10% (post-consumer + ½ pre-consumer) <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor is manufactured using ?% post-consumer recycled content.	<u>1 point</u>
----------	---	----------------

## LEED® FOR RETAIL: *This rating system will not be officially released until Spring 2009*

### Materials & Resources:

Credit 3.1:	<u>Materials re-use, 10%</u> <i>Explanation of criteria compliance:</i> Reuse of existing Rubber Floor originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation.	<u>1 point</u>
Credit 3.2	<u>Materials re-use, 20-%</u> <i>Explanation of criteria compliance:</i> Reuse of existing Rubber Floor originally sourced through The Matworks and specifying new product to match this existing condition for any addition or renovation.	<u>1 point</u>
Credit 4.1	<u>Recycled content, 10% (post-consumer + ½ pre-consumer)</u> <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor is manufactured using ?% post-consumer recycled content.	<u>1 point</u>
Credit 4.2	<u>Recycled content, 20% (post-consumer + ½ pre-consumer)</u> <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor is Manufactured using ?% post-consumer recycled content.	<u>1 point</u>
Credit 5.1	<u>Regional Materials</u> 10% extracted, processed and manufactured regionally <i>Explanation of criteria:</i> The Matworks Rubber Floor material is extracted and manufactured in (US?)	<u>1 point</u>
Credit 5.2	<u>Regional Materials</u> 20% extracted, processed and manufactured regionally <i>Explanation of criteria:</i> The Matworks Rubber Floor material is extracted and manufactured in (US?)	<u>1 point</u>

---

### Indoor Environmental Quality:

---

<u>Credit 4</u>	<u>Option C: Low emitting materials, flooring</u> <i>Explanation of criteria compliance:</i> The Matworks Rubber Floor has been certified as compliant with the Floorscore Standard. (This credit can be added after material has gone through testing protocols and passed).	<u>1 point</u>
