GTI

GTI interlocking flooring system offers the best of both worlds: comfort and practicality. Ideal for industrial application, GTI is a heavy duty vinyl tile designed specifically to withstand the rigors of warehouses and industrial settings. GTI also improves the working conditions by offering walking comfort, noise reduction, and easy maintenance. Great dimensional stability with excellent resistance to mechanical wear, static and chemicals. Interlocking- no adhesive, grouts, or welds required! GTI can be quickly uplifted, moved and used again. Ideal for overlaying existing floor coverings. Environmentally friendly - no harsh chemicals to maintain. GTI also comes with creative logos and a wide range of colors and designs. Give your industrial setting the affordable face-lift it deserves with GTI.
