PERFECTION

Now, you can combine the superior performance and high durability of pure vinyl with the pure beauty of a rich, natural wood look. The thickness and double layer construction holds the tiles flat. No adhesive, grout, or welds required! Perfection can tolerate higher levels of moisture than traditional glue down flooring. Specifically designed to withstand heavy foot traffic and rolling loads. When tapped as a design and merchandising vehicle, Perfection has been proven to boost sales by enhancing your image. The right floor can set the tone for shoppers to upgrade to higher-priced goods. Environmentally friendly - no harsh chemicals to maintain. Perfection tiles are resistant to stains, scratches and heel marks. With fast track installation, operational areas can remain open during construction and floors can be trafficked immediately.

PERFECTION

MATERIAL
