TOTAL FLOOR PERFORMANCE FOR GROCERY

MATWORKS
PROTECT EVERY STEP

Grocery stores face constant demands from heavy foot traffic, shopping carts, spills, and food. MatWorks delivers engineered floor performance systems and matting solutions that help reduce risk, control dirt and moisture, and create cleaner, safer, more attractive stores.

ENTRANCE SYSTEMS

Foot traffic brings in dirt and moisture. Entrance systems and walk-off matting helps stop it at the door. Choose from high-traffic, absorbent, slip-resistant, or branded options.

MatShield™

MatShield keeps entrances professional by aggressively trapping dirt, moisture, salt, and debris before they reach the store floor. Its modular grid design supports custom layouts, easy maintenance, and long-term durability in high-traffic areas, helping reduce cleaning costs while protecting flooring investments and customer experience.

REPP-Tile™

REPP-Tile by WaterHog® is a high-performance entryway carpet tile made from recycled PET for lasting durability, stain resistance, and fade resistance. Fully recyclable at the end of its lifecycle, it is designed to stay out of landfills while MatWorks handles installation, removal, and recycling.

WaterHog®

Trusted for decades in high-traffic environments, WaterHog mats help during all weather conditions. The bi-level surface traps dirt and moisture below foot level while reinforced rubber nubs resist crushing for long-term performance. Custom logo options are available to reinforce your brand from the moment customers enter.

SAFETY AND COMFORT

From wet prep areas to checkout stations, grocery-store floors demand more. Engineered safety and comfort solutions improve traction, reduce fatigue, and support cleaner, safer, more productive spaces.

Sure Stride®

Keep high-moisture areas safer with low-profile matting designed for produce, deli, and prep stations. It helps improve traction and quickly disperses liquids while remaining easy to clean and maintain. Installation and regular replacement services available.

TuffComfort® Cashier Mat

Keep grocery checkout teams comfortable through long shifts. Its high-density foam cushioning helps relieve pressure on the lower back and legs, while the durable, wipe-clean surface handles everyday spills and dropped food items. Beveled edges provide a smooth floor transition to help reduce trip hazards in busy checkout lanes.

Select Comfort Tile

Its durable, fade-resistant construction maintains a clean, professional look in pharmacy areas, while cushioned support helps reduce strain for staff working long shifts. The carpeted surface traps dirt and moisture at service points, supporting safer, cleaner spaces that reflect your brand.

CORE FLOORING

Flooring forms the foundation of the customer experience, setting the tone for how a space looks, feels, and performs every day. MatWorks flooring solutions are engineered for durability, long-term performance, and design flexibility.

GeckoGrip

GeckoGrip flooring stands up to shopping carts, pallet jacks, and everyday wear. The innovative glue-free backing enables fast installation and easy replacement, reducing downtime during renovations or repairs.

Core Defender Series

Core Defender vinyl flooring combines commercial-grade durability with a polished, professional appearance. Its advanced protective coating resists scratches, stains, and scuffs while supporting easy maintenance and long-term floor performance across every location.
