TOTAL FLOOR PERFORMANCE FOR

PHARMACY

MATWORKS
PROTECT EVERY STEP

Pharmacy professionals spend long hours on their feet serving patients and supporting their health. MatWorks offers tailored solutions that help improve employee comfort, reduce slip-and-fall risks, and control dirt and moisture. Let MatWorks help create a safer, cleaner environment for your team and customers.

ENTRANCE SYSTEMS

An effective entrance system helps pharmacies maintain a clean, professional environment while reducing slip hazards for customers and employees.

MatShield™

MatShield helps pharmacies maintain clean entrances by trapping dirt, moisture, salt, and debris before they reach retail and prescription areas. Its durable modular grid design accommodates custom layouts and simplifies maintenance, helping reduce cleaning costs, protect flooring, and create a safer, more welcoming experience for customers.

REPP-Tile™

REPP-Tile by WaterHog® gives busy pharmacy entrances a durable first line of defense against tracked-in dirt and moisture. Made from recycled PET, it resists stains and fading while supporting a more sustainable lifecycle. MatWorks handles installation, removal, and recycling to help keep used tiles out of landfills.

WaterHog®

Trusted in high-traffic pharmacy entrances, WaterHog mats provide year-round protection against tracked-in dirt and moisture. The bi-level surface traps debris below shoe level, while reinforced rubber nubs withstand frequent customer traffic. Custom logo options reinforce your pharmacy's brand from the moment patients and customers enter.

COMFORT AND PRODUCTIVITY

Pharmacists and technicians spend long hours standing, often leading to foot, leg, and back fatigue. Anti-fatigue solutions provide cushioned support, helping pharmacy teams stay comfortable, focused, and productive.

Select Comfort Tile

Designed for pharmacy counters and service areas, this solution supports customer experience and employee comfort. Its durable, fade-resistant construction maintains a professional appearance, while cushioned support helps reduce staff fatigue. The carpeted surface traps dirt and moisture, creating a cleaner, safer environment.

Revive Comfort Tile

Revive Comfort Tiles provide cushioned, wall-to-wall support for pharmacists and technicians who stand throughout the day. The durable, slip-resistant surface helps reduce leg and back strain while remaining easy to clean, and the interlocking design delivers lasting comfort behind the pharmacy counter.

Hog Heaven®

Hog Heaven provides durable anti-fatigue support for pharmacists and technicians who spend long hours standing at prescription-filling and service stations. Its high-density cushion helps relieve pressure on the lower back and legs, while the high-traction surface and molded construction deliver dependable performance shift after shift.

CORE FLOORING

Pharmacy floors endure constant wear from heavy foot traffic, carts, and daily operations. MatWorks offers durable, easy-to-maintain flooring that helps reduce long-term costs. Available in a range of colors, styles, and patterns, our flooring complements and elevates any pharmacy environment.

Core Defender Series

Core Defender vinyl flooring provides the commercial-grade durability pharmacies need with a clean, professional appearance. Its advanced coating resists scratches, stains, and scuffs from heavy foot traffic and rolling equipment, supporting easy maintenance and consistent performance across every location.

ColorScale

ColorScale carpet tiles and planks give pharmacies modern design flexibility with durability for busy retail, consultation, and administrative areas. The versatile color palette supports clean, professional interiors or branded accents, while severe-traffic construction maintains its appearance and performance under daily foot traffic.
